

Hello!

eCycle Solutions and the Federation of Calgary Communities are excited to partner together to deliver industry leading electronics recycling programs for collection and processing. Now part of the Federation's Benefits of Membership (BOM) program, eCycle Solutions will offer our services to Calgarians in 2019 and beyond all free of charge.

eCycle Solutions is a 100% Canadian company, operating multiple recycling facilities from coast to coast. Since 2005, eCycle has been diverting electronic waste away from landfills by offering innovative recycling solutions. In this way, we have prevented thousands of tonnes of electronic waste from ending up in a landfill. As registered processors for Alberta Recycling Management Authority (ARMA), we pay you for the collection of ARMA eligible products.

With our 70,000 square foot facility in Airdrie, we are making community cleanups and round up days easier than ever and as a community organization and member of the Federation, you benefit where we provide free advertising, signage, trucks, collection bins and friendly staff to assist on the day of the event.

Simply contact me via email at [astanescu@ecyclesolutions.com](mailto:astanescu@ecyclesolutions.com) or call me directly at (403) 589-9907 to book your event and you are on your way! The quicker we get the word out to your community the closer we will be in reaching our goals towards a cleaner, better Calgary.

We are also interested in working with your organization outside of community clean ups so contact us to chat about the possibilities. Don't forget Earth Week 2019 quickly approaching on April 22!

Sincerely,

**Alex Stanescu**
