

WINNERS

November 2022

Organization Name	Action Idea	Amount
Banff Trail Community Association	We would like to purchase monogrammed reusable water bottles and give them away at our membership drive in March (Our memberships are free). Our Community Association is looking to reduce our carbon foot print and no longer offer one time use water bottles and juice boxes at our events.	\$1,000
Citadel Community Association	<p>Thank you for this opportunity. We are in great need of the following items for our new community building.</p> <ol style="list-style-type: none"> 1. New water hoses to flood the rink. Our current hoses are falling apart and do not have much life left. Without these hoses we will not be able to continue to provide rink services to our community. 2. Chair dollies. We currently have no easy way to move our chairs around our community building for our renters. We are currently moving large volumes of chairs around one by one as needed. In addition, and our floors are getting scratched by renters moving chairs improperly 	\$1,000

<p>East Village Neighbourhood Association (EVNA)</p>	<p>EVNA is looking to increase our supplies for events that we can store. Currently, when we have events we need to rent 10 x 10 pop-up tents, 6 x 30 tables, speaker systems and microphones, heaters, projector screens, chairs, coffee/hot water carafes and games (giant-size Jenga and cornhole are big hits!). As we work to stay inclusive and rarely charge for our events we host most of our events at a loss. If we were to have more readily available supplies we would take less of a loss and be able to host even more. These supplies would be for events like our annual Bike Day, Kite Day, Neighbour Day event, Harvest Garden Party, past pop-ups like our 2021 Pumpkin sale, as well as when we join established events like Pride or CMLC's Light Up the square. As East Village does not have a community hall, currently all of our events are outdoors within the community, activating our spaces and our neighbours! Any little bit that can help us achieve that is appreciated!</p>	<p>\$1,000</p>
<p>Kingsland Community Association</p>	<p>We are trying to raise additional funding to enclose the basement stairwell entrance for the safety of the children who attend preschool and other renters. We have a huge safety problem with street people using the stairwell for drug use, defecation, urination, used needles, etc. It is a costly initiative - our action plan to keep the community safe!</p>	<p>\$1,000</p>
<p>Lake Chaparral Residents' Association Ltd.</p>	<p>We are looking for funding to provide a new stove/oven for our Lakehouse Function Room! Our current one has been non-functional for quite some time - funding for a new one would help us immensely as we look to rejuvenate and better activate the space for events in the community!</p>	<p>\$1,000</p>
<p>Millican Ogden Community Association</p>	<p>Millican Ogden and the Jack Setter arena have contracts for once a day snow removal of the sidewalks surrounding the community centre and arena. If it continues to snow throughout the day the arena staff are to continue with maintaining the sidewalks. Many years ago a large used industrial rotating brush was donated to assist the arena staff in clearing snow from sidewalks in the winter and gravel from the parking lot in the summer. That was several years ago and the well-used brush is creating safety issues for walkers, joggers, participants, children going to school and our furry four legged friends.</p> <p>The brush while pushing the snow forward actually just packs and polishes the snow creating build-up and a slick surface. With the recent snowfalls the extensive sidewalk became so slippery with the freezing temperature people started walking out on the road which is a safety issue.</p>	<p>\$1,000</p>

	<p>What would be a good solution would be to purchase a plow that would attach to the front of our ride on (grass cutter) that all staff could operate regardless of physical size or disability. The plow is \$2,000.</p> <p>We are asking for financial assistance of \$1,000 to not only assist in making the sidewalks and walk ways safer but to help us save our savings to make some very necessary renovations to our mostly original (60+ year old) buildings.</p>	
MPC Foundation	<p>The primary mission of our organization is to mitigate or prevent social isolation for seniors. This Christmas, we need additional support for seniors as needs have relentlessly increased while our resources have not. At Christmas we target the delivery of Christmas care bags to those seniors who live alone or are without family members and no social network. Seniors in particular have been severely impacted by rising cost of essentials. For Christmas, at least, we hope to provide them some reprieve and be able to enjoy the season.</p>	\$1,000
North Haven Community Association	<p>The North Haven Community is in the process of building a community garden to bring together community members in a shared love of gardening. We are excited to report that the garden is currently under construction and community members will be able to start planting their garden plots in spring 2023! To help make gardening financially accessible to community members, we want to provide tools for plot owners to use. Additionally, we need to construct fencing around the garden to keep foraging animals out of the plots. The Toole Peet Action Grant would be used to purchase gardening tools, hoses, and fencing for our much anticipated community garden.</p>	\$1,000
Total Toole Peet Action Awards		<u>\$8,000</u>
