# WORKSHOPS

January 2023 - June 2023

## Partners in Planning - Elective Course - Local Area Plans

Local Area Plans layout a future vision for a community and they are developed through a collaborative engagement process that uses local knowledge from residents, community-based groups, business owners and other stakeholders. This workshop will provide you with an understanding of the local area plan process and how you can better prepare your community for future change.

**Saturday, May 13**  
**Online (Teams)**

**9:00am - 12:00pm**

**with Ali & Adithi**

## Planning Committees Best Practices

Whether you are an established community experiencing lots of redevelopment or a small group dealing with the occasional planning application, there is always the opportunity to create or join a Community Association planning committee! Planning Committees are residents' go-to source of information for everything planning and development related. This workshop will teach you the basics of planning committees; how to get them established and work effectively with other members and planning stakeholders.

**Thursday, May 25**  
**Online (Zoom)**

**7:00pm - 9:00pm**

**with Ali & Adithi**

## Planning in Climate Emergency

In November 2021, The City of Calgary declared a Climate Emergency in support of accelerated action to respond to climate change and to recognize the pace and scale of the action needed to reduce emissions and adapt to climate change. In Calgary, climate change is increasing the frequency and severity of climate hazards, creating risks for residents and fundamentally changing the way we live, work and play. In this session, City of Calgary staff will discuss how climate change will impact Calgary's communities, tools to help residents adapt to climate change, and how residents can do their part in reducing our greenhouse gas emissions to help meet our 2050 objectives.

**Saturday, June 3**

**9:00am - 12:00pm**

**with Ali & Adithi**

**Venue: Cliff Bungalow-Mission Community Association - 2201 Cliff Street SW**
